

Hotbox **3**

Hotbox **3**

Who are you **at work?**

To be in the right headspace for your workday, you need something that is intuitive, stylish and adapts to your workstyle.

That is why we created Hotbox 3. More than just a laptop bag, Hotbox 3 has endless storage possibilities to meet everyone's agile working requirements. With separate compartments for a laptop, an iPad, notebook, phone, pens and business cards Hotbox 3 keeps you organised when you travel and wherever you choose to work. It is weatherproof, mobile and understated, organising all the tools you need to have a successful workday.

Available in a variety of shades, Hotbox 3 is made from Rivet by Camira, an ultra-modern fabric comprising REPREVE® polyester that is both luxurious and sustainable in its design. Each Hotbox 3 contains seven recycled 500ml PET bottles, what other product looks good and is kind to the environment at the same time?

Hotbox 3

Personalisation

When you are agile working outside the office, the Hotbox 3 enhances your workstyle by ensuring you have everything you need. The fabric and range of colours for Hotbox 3 have been carefully selected to compliment your personality and also ensure sophistication outside the office. Featuring multiple bespoke compartments to house your things, the Hotbox 3 not only keeps you organised but helps you personalise and adapt to what you need for the day ahead. We also have a range of coloured fabric Pencil Cases to match or compliment your choice of Hotbox 3.

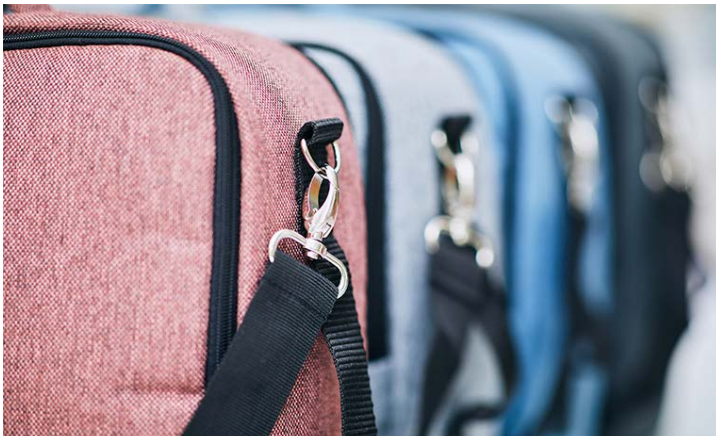

Hotbox **3**

Ease of Use

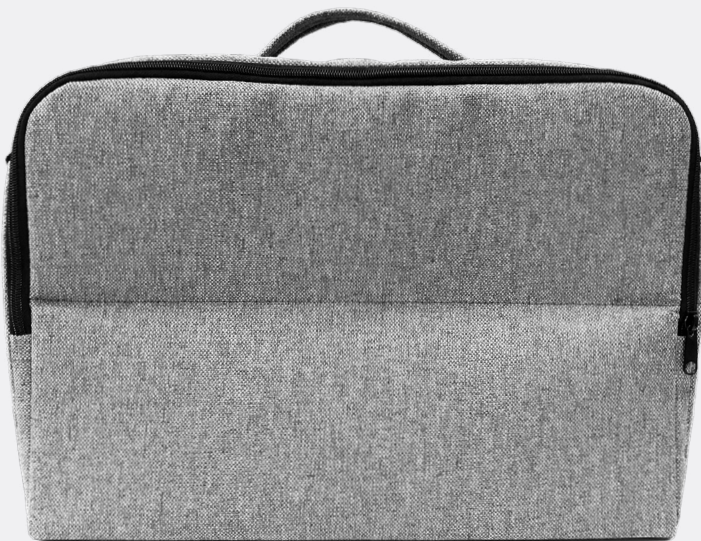

Every Hotbox that we design has been developed with ease of use in mind and the new Hotbox 3 is no exception. Hoxbox 3 features a main compartment, with bespoke pockets to house everything you will ever need to remain organised and a thinner compartment to help you keep your laptop or larger documentation safe. The soft grip handle allows you to move your Hotbox around the office with ease and comes with a black shoulder strap for when you are on go and agile working outside the office.
